Richmond, VA | sahb@umich.edu | (734) 905-2504 | [linkedin.com/in/sahilpreet-singh-bhola/](https://www.linkedin.com/in/sahilpreet-singh-bhola/)

Technical Product Manager | Data-driven, user-centric products

Product manager with experience leading cross-functional teams to ship customer-facing web experiences and internal tools. Led a corporate partnerships site redesign (↑ contact form conversion 15%) and delivered a new table-view feature at Capital One (↑ NPS 25 points). Technical background in full-stack development, UX design, and AWS.

EDUCATION

University of Michigan – School of Information

Ann Arbor, MI

Bachelor of Science in Information (Concentration in UX Design/Research)

- GPA: 3.80/4.00
- Courses: Data-Driven Apps, Data-Oriented Programming, Laws of UX, Sports Analytics

EXPERIENCE

sahiltalksfinance | Impulse (Budgeting App)

Founder & Lead Developer

Dec 2025 - Present

- Architecting Impulse, a full-stack budgeting app using the Plaid API to aggregate real-time transaction data and Supabase (PostgreSQL RLS) to ensure secure, isolated user data management
- Grew the sahiltalksfinance digital community to 800+ followers by identifying a gap in accessible financial literacy for young professionals
- Leveraging community-driven user research by analyzing engagement analytics and community queries to define the Impulse product roadmap

Capital One

Richmond, VA

Software Engineer

Feb 2025 - Present

- Drove the strategic migration of legacy infrastructure to a modern, compliant AWS cloud architecture by orchestrating automated resource management, successfully mitigating security risks and ensuring enterprise compliance
- Led discovery, prioritization, and end-to-end delivery of a new table-view feature, partnering with design and engineering to address key user pain points and drive a 25-point increase in NPS
- Owned roadmap and execution for org-wide engagement initiatives as Fun and Service Lead, managing a 40+ person committee and budget to deliver large-scale events that improved cross-functional collaboration and department engagement

Ciena Healthcare

Southfield, MI

Financial Data Analyst

Jul 2024 - Jan 2025

- Developed an Overtime cost summary report in collaboration with leadership, analyzing year-to-date OT hours and earnings for 45+ healthcare facilities to identify early indicators of rising costs
- Identified critical cost anomalies through deep data analysis, delivering actionable insights that drove a 5% reduction in operational expenses across 45+ healthcare facilities

University of Michigan

Ann Arbor, MI

Product Manager

Sep 2023 - May 2024

- Led a cross-functional student team to completely redesign the Corporate Research Alliances web experience, aligning user needs with overarching business goals for the Innovation Partnerships team
- Conducted extensive user interviews and developed comprehensive journey maps to identify core pain points, driving iterative, user-centric improvements to the platform
- Delivered a high-fidelity prototype incorporating direct client feedback, successfully optimizing user flow and driving a 15% increase in conversion rate (contact form clicks)

University of Michigan Women's Volleyball Team

Ann Arbor, MI

Data Analyst

Sep 2023 - May 2024

- Leveraged R, Python, and SQL to analyze Catapult sensor data, identifying strategic rotation opportunities that optimized practice management and drove a 6% reduction in team injury rates
